DENTALSM

If you don't provide a dental plan for your employees, or think the one you have is too expensive, it's TIME for a CHECK-UP!

You don't have to suffer through another big rate increase. As an employer you can now offer dental insurance on an employer-partial paid basis or 100% voluntary option. Your employees will appreciate the opportunity to get affordable group benefits and rates even if they're paying for the benefit.

"This plan offers a lot of value to our members and their employees."
Scott Lambert, Executive Vice President, MADA

Highlights of the Delta Pathfinder MADA Dental Plan:

- Freedom to use "Any Dentist."
- No Balance Billing for Delta Network Providers
- Only 2 employees or 20% of your eligible group, whichever is greater, to take advantage of this plan.
